the Pittsburg Sheriff Takes Control of the Roads About the DeArmit Mines. More Strikers Being Evicted-Sam De-Armit's Life Threatened.

PITTSBURG, Aug. 18.—The coal operators' uniformity committee is meeting this afternoon to hear reports from Secretary J. B. Johnson and the sub-com- Detroit Man Replied to the Governor at mittees that are making a canvass among the operators for signatures to the agreement.

It is likely that the committee will authorize the publication of the list, as can Banking association in this city. district. George W. Schluederberg signed for ten of the companies, and David W. Van Eman signed for the Pittsburg and Chicago Gas Coal company. Dr. D. M. Anderson and Henry Floersheim have signed, and if the report is true that Osborne, Saeger & Co. and Boyle Bros. have signed, all the mines on the Wheeling division of the Baltimore and Ohio railroad are included in the uniformity agreement.

There seems to be no doubt now that the agreement will go through, and an effort will be made to have it become operative at an earlier date than Jan. 1. All roads in Plum, Patton and Wilkins townships (Plum Creek mine

is in Plum township; the Oakhill mine in Wilkins township and the Sandy Creek mine in Patton township) are patrolled by deputies, and persons are stopped from walking or driving along the roads who cannot give a satisfactory account of himself or herself. Those who cannot do this are ordered to leave the neighborhood and on refusal will be arrested.

The sheriff will not attempt to break up the camps until the court has passed on the question. No one will be permited on the property of the New York and Cleveland Gas Coal company who has not a permit.

The Turtle Creek campers marched to the Oak Hill mines, but were stopped by the sheriff on the road and turned back without trouble.

There were 22 more evictions of miners living in company houses near Plum Creek. The names of five are John Burke, John McCabe, John Salogis, James Black and Peter

Passengers on a train from Pittsburg to Turtle Creek say a man, who gave his name as John Monroe, and who said he was from the Osceola mine, announced that he was going to kill Sam DeArmit. The claim is made that there are a number of anarchists in the vicinity of the mines who are after the Chautauqua plan, are progressing the DeArmits. They are not in the rapidly. camps, however.

Samuel DeArmit is under arrest by the sheriff. Neither he nor the sheriff will say for what he is arrested, but the strikers say it is to prevent his arrest by any constable, which would be impossible as long as he is in the sher

iff's custody. Additional suits are to be entered against Samuel DeArmit. Mrs. Tenney McCabe, her daughter, Hannah, and her niece, Duella, will prefer charges of disorderly conduct against him before Alderman Toole. Mrs. McCabe says she and the two girls were insulted by Mr. DeArmit on Sunday, and claims that he used vulger language. Charles Stevick entered suit, charging Samuel DeArmit with using profane and abusive language.

Several other persons called at the miners' headquarters and say they will also bring suits, but desire first to consult an attorney.

GENERAL SWAIM'S DEATH.

A Native of Salem and Formerly Practiced Law In This State.

WASHINGTON, Aug. 18.-David G. Swaim, U. S. A., retired judge advocate general, has died here, aged 63, of Bright's disease.

General Swaim was born in Salem, O., Dec. 22, 1834. He came of a family represented in all of the early wars of the United States, conspicuously in the war of 1812. His father was the friend of Joshua R. Giddins, Solomon P. Chase and other advanced political thinkers of the day, and was one of the few men who organized the free-soil party in Ohio. General Swaim received an academic education, studied law and began practice at Salem. On the outbreak of the war he entered the volunteer service as a lieutenant, rising rapidly to the rank of major and brevet colonel, when mustered out in 1866. He served throughout the war, participated in many memorable engagements and being for a time on the staff of General Thomas.

After the war he was attached to the regular army as major and judge advocate. In the latter capacity he distinguished himself in cases of reconstruction acts of congress tried before the United States courts of Mississippi. On Feb. 18, 1878, President Hayes appointed him judge advocate general of the army, with the rank of brigadier general. He was the trusted friend of and companion of President Garfield. and attended him through the long fatal hours that preceded his untimely death. In 1884 he was accused of giving evasive answers to the secretary of war regarding a private transaction, tried by courtmartial and acquitted of fraudulent practices, but convicted of conduct prejudicial to good order and discipline. The sentence imposed by the military court was disapproved.

The court then sentenced General Swaim to suspension from rank and duty and on half pay for 12 years. This brought the expiration of his sentence and the date of his retirement the same year (1896). General Swaim sued in the court of claims to recover his full pay, the court deciding that the evidence showed no offense, but that the court of claims had no jurisdiction to review court martial proceedings. The case went to the supreme court on appeal and was decined adverselv.

Dec. 3, 1804, Secretary Lamont, by direction of the presideni, remitted the unexpired portion of his sentence and restored him to all the rights and privileges of his office. He preferred not to take up his official duties od account of ill health, and remained on the active list waiting his retirement, which took place Dec. 22, 1894.

Since his retirement he resided in Washington. He leaves a swife and one child, the wife of L. L. Thompson of this city.

Pittsburg District Operators Decide to Start Their Mines-Strikers' Stand Declared to Be Highhanded-Refuse to Increase Wages at Present.

CLEVELAND, Aug. 18.—The operators of the Pennsylvania coal mines have held a conference in this city, at which the following firms were represented: The Ella Coal Co., Vulcan Coal company, Moon Run Coal company of Pittsburg, Youghiogheny River Coal company of Erie; Canonsburg Coal company, Walsh-Upstill Coal company, A. C. Saunders & Co., Morgan, Moore & Blame, Chartiers Block Coal company of Pittsburg, J. H. Somers Fuel company, F. L. Robbius of Pittsburg, Pickands, Mather & Co., West Newton Pittsburg, W. P. Rend of Chicago, Osborne, Saeger & Co., Rhodes and Beidler Coal company, J. D. Sauters & Co., J. W. Ellsworth & Co., Johnson Mining company. Cuddy-Mullen Coal company, Imperial Coal company of Pittsburg, Webster Gas Coal company, Ohio and Pennsylvania Coal company and the Port Royal Coal and Coke company of Youngstown.

It was determined that mines in the Pittsburg district should be started and operated without further delay, on the grounds that the miners have taken a high-handed position; that nothing but an unreasonable price for mining will satisfy their demand, and that they have been unwilling to treat with the operators on any fair grounds. Also that there is no course left open to the operators at this time.

It was determined that all coal sold at the 54 cent basis of mining this year must be mined at that price. No change will be made in the price of mining until the contracts made at the 54-cent basis of mining are filled and the uniformity agreement is com-

At least three-fourths of the tonnage of the Pittsburg district was represented at the conference, and all are unanimous and agreed to, if necessary, forcibly resume operations, with the exception of M. A. Hanna & Co.

RETALIATION WOULD FOLLOW.

This Country Could Make It Almost Impossible For Canadians to Go and Come From the Klondyke-The Ten. Per-Cent Royalty All Right.

WASHINGTON, Aug. 18 .- It is not believed by officials of the government that any serious hardships will be imposed by Canada upon American miners in the Klondyke gold regions. It is pointed out that it would be difficult to enforce any serious impositions upon the miners.

Such a course might result in retaliation enforced by the United States so as to make it almost impossible for the Canadians to go or return from the Klondyke country. If this country should prevent Canadian officials from entering the Klondyke through American territory they would be obliged to reach the gold country over thousands of miles of unexplored country.

While it is said there has been no correspondence bearing directly on the point of impositions upon the American miners there it is intimated that Canada desires to be very friendly as to northwestern conditions, and that there is a dispositions to co-operate so as to furtner the best interests of all concerned.

It is stated that in imposing the 10 per cent royalty on the gold output equally on Canadians and Americans, the United States can have no cause of complaint.

WILLIAMSON, W. Va., Aug. 18 .-Sheriff Newton J. Keadle of Mingo county denies that there has been any battle with "Cap" Hatfield, despite the bloodcurdling story of dynamiting his stronghold, etc.

"Cap" Hatfield before his escape from jail two weeks ago, was confined for nothing more serious than involuntary manslaughter, and had only five weeks of a three months sentence to serve. There were no other crimes charged against him, and if he is never captured it will not be a serious matter. The sheriff says he does not even know where "Cap" is located.

Pittsburg District Operators Decide to Start Their Mines-Strikers' Stand Declared to Be Highhanded-Refuse to Increase Wages at Present.

CLEVELAND, Aug. 18.—The operators of the Pennsylvania coal mines have the following firms were represented: The Ella Coal Co., Vulcan Coal company, Moon Run Coal company of Pittsburg, Youghiogheny River Coal company of Erie; Canonsburg Coal company, Walsh-Upstill Coal company, A. C. Saunders & Co., Morgan, Moore & Blame, Chartiers Block Coal company of Pittsburg, J. H. Somers Fuel Pittsburg, W. P. Rend of Chicago, Osborne, Saeger & Co., Rhodes and Beidler Coal company, J. D. Sauters & Co., J. W. Ellsworth & Co., Johnson Mining company. Cuddy-Mullen Coal company, Imperial Coal company of Pittsburg, Webster Gas Coal company, Ohio and Pennsylvania Coal company and the Port Royal Coal and Coke company of Youngstown.

It was determined that mines in the Pittsburg district should be started and operated without further delay, on the grounds that the miners have taken a high-handed position; that nothing but an unreasonable price for mining will satisfy their demand, and that they have been unwilling to treat with the operators on any fair grounds. Also that there is no course left open to the operators at this time.

It was determined that all coal sold at the 54 cent basis of mining this year must be mined at that price. No change will be made in the price of mining until the contracts made at the 54-cent basis of mining are filled and the uniformity agreement is com-

RETALIATION WOULD FOLLOW.

This Country Could Make It Almost Impossible For Canadians to Go and Come From the Klondyke-The Ten-Per-Cent Royalty All Right.

WASHINGTON, Aug. 18 .- It is not believed by officials of the government that any serious hardships will be imposed by Canada upon American miners in the Klondyke gold regions. It is pointed out that it would be difficult to enforce any serious impositions upon the miners.

Such a course might result in retaliation enforced by the United States so as to make it almost impossible for the Canadians to go or return from the Klondyke country. If this country should prevent Canadian officials from entering the Klondyke through American territory they would be obliged to reach the gold country over thousands of miles of unexplored country.

While it is said there has been no correspondence bearing directly on the point of impositions upon the American miners there it is intimated that Canada desires to be very friendly as to northwestern conditions, and that there is a dispositions to co-operate so as to furtner the best interests of all concerned.

It is stated that in imposing the 10 per cent royalty on the gold output equally on Canadians and Americans, the United States can have no cause of complaint.

A FEMALE MEMBER.

EVERY GANG OF COUNTERFEITERS HAS CONTAINED A WOMAN.

It Is a Weakness of the Sex, and They Are Frequently Very Clever-Some of the Women Who Have Been Convicted of Making and Passing "Queer" Money.

Women have a weakness for counterfeiting. The first person ever executed for that crime was a woman. She was an English woman named Barbara Spencer and was put to death in 1721 for making false shillings. She was strangled and burned at the stake. Curiously enough, her accomplices were acquitted.

Nancy Kidd was one of the most remarkable female counterfeiters ever known in this country. She belonged to a family of noted forgers. She carried on her nefarious trade for more than 30 years in Chicago, and was arrested there many times. On one of these occasions a lot of fiber paper was discovered on her person. The government officials were completely at a loss to know how she had obtained this. Finally she confessed that a chemical solution had been used to wash the faces of the notes and make them perfectly clean. Thus she a few of our was in the habit of taking \$1 bills and changing them into larger denominations. The government authorities released her in return for this valuable information and for telling them what the solution was. However, they had her shadowed by detectives and finally caught her with \$17,000 worth of counterfeit money in a box. She was found guilty upon seven different indictments styles and colors, all for counterfeiting and was sentenced to eight years in the state prison, where sizes and widths, worth she finally died.

on Uncle Sam was invented by a woman who lived in Philadelphia. Her plan was to take \$10 and \$20 goldpieces and with a small drill worked by steam power to bore out the insides and then refill them with some base metal, being very careful that they should weigh exactly the right amount when she had finished. This she accomplished by drilling through the milled edge of the coin, and then, after filling the hole, cover it with a little of the extracted gold. In this way she made \$7.50 on every eagle and about \$16 on every double eagle. The officials of the secret service say that this is the safest device ever invented for cheating the treasury.

Counterfeiting is very apt to run in families. This, of course, is natural, as a father brings up his son or daughter to follow his profession. Women who would otherwise be good are often led into this sort of crime by marrying men who carry it on as a business. But someteach their husbands how to make false styles and colors, special, times it works the other way-women money. This is what happened when Ben Boyd married Mary Ackerman of at Indiana. Her father was one of the most successful counterfeiters of his day, and his daughter had a thorough acquaintance with the art. Mrs. Boyd carefully taught her husband all the secrets of the trade, and he became one of the most famous forgers of the age.

They carried on the business with such a high degree of skill that they were not captured for years, and when at last the secret service Hawkshaws did run them down not a single counterfeit plate, note or coin was found in their Children's and misses' possession. When their house was searched, \$8,000 in good money was found. This small amount was all the money they had accumulated during all price from 48c to 98c, their years of crime. Of course the officers could not touch it. Afterward sufficient evidence was secured to convict them, and they were sent to prison. They both claimed to be converted while in state prison, and after their release Youths' and boys' shoes, settled in Chicago, where they apparently lived an honest life.

A case that annoyed the secret service very much was that of a woman who colors and styles, worth employed a clever dodge. She went to a large shop and selected a valuable shawl. To pay for this she handed the clerk a United States treasury note for \$1,000. He took the money and disappeared, not returning for several minutes. When he came back, she asked him why he had kept her waiting, and he confessed that he had taken the bill to a bank near by to be sure that it was good. She pretended to be very angry and said that she would not buy the shawl on any account and walked out of the shop. A little later in the day she returned and said that as she could not find any other shawl that suited her as well in the other shops she had decided to take it in spite of the insult offered her. She gave him the \$1,000 bill, and, getting the shawl and the change, left the shop. The owner of the shop afterward discovered that the note he finally accepted was a counterfeit. The first bill had been good, but on her return she gave him the false one, which was a wonderfully clever imitation. The secret service was much agitated about this and several others of the \$1,000 bills which turned up, but they have since captured the plates.

Practically every gang of counterfeiters ever arrested has had women associates. In the office of the secret service in Washington there is a large frame, 4 feet square, filled with the photographs of women who have either made or passed false money. Men almost always employ their wives or daughters for the purpose of "shoving" their counterfeits. -Washington Post.

Which Will Make His Life Uncomfortable For a Few Months-Abe Rambo Is Still In Town-The Baseball Game to Be Enlivened by a Balloon Ascension.

Another thief has been run down and will serve a term of six years in the Riverside penitentiary of Pennsylvania as the result of his misdeeds.

All last winter Robert Stewart was an employe of the broom factory at this place, and not more than one man in the city knew of his former record. Stewart was favorably known here until two years ago when he was sent to the penitentiary, but returned and paid some bills. Last spring he appeared with a bay mare which he offered for sale. The man wanted a black horse and in a day or two Stewart tried to accommodate him, but was disappointed. Then he tried to sell it to another man for \$10, but Stewart saw that he was about to be identified, and disappeared. Two hours later Liveryman Martin, of McDonald, appeared in search of a stolen horse, the property of Banker McDonald. The horse was recovered, and soon after Stewart was arrested while visiting relatives. Yesterday he was convicted at Washington, and got six years. When arrested he had some stolen property on his person, and now he is being tried on two charges of burglary.

ABE RAMBO IN TOWN.

He Is Being Well Cared For by a Young Woman.

Ever since Jabby Geisse and Joe Hudson were arrested and taken to Steubenfor numerous offenses. Abe is a slippery fellow, and keeps well away from hands full wrestling with the state board. the general public, but then there are parties who have seen him lately, in fact he was seen on a recent evening with a lady friend who resides on Second street. She has been very faithful to him in his troubles, and has continually supplied him with food while he was in hiding. She does not visit him in his hillside haunts at regular intervals, and, although Abe fares sumptuously, his meals are not on the hour. An individual who is well acquainted with both parties recently met them together. Abe ran, and ran very fast, no doubt thinking an officer was after him, and the woman was very much frightened at his sudden appearance. To say that Abe will be captured at the proper time is not a prediction that will fail to come true, because the officers keep track of him.

A LIVELY TRIAL

Amused a Crowd In the Court of Mayor Jones.

There was a lively trial in Mayor Jones' court, yesterday afternoon. This time a case from the West End. The testimony was rich, and much of it is not fit for publication.

Miss Tenie Little made complaint against Mrs. Jemimah Campbell for using profane and abusive language in the family will take up their residence. a public place. Attorney J. H. Brookes appeared in behalf of the defendant, Mrs. Campbell, and Attorneys Jeff Forner and Snediker for Miss Little.

Fourteen witnesses were called, in the main women, who told almost the same story, except one, who, when asked: By what name is that part of town known?" replied, "Hell's half acre."

Mayor Jones had compassion on Mrs. Campbell, and let her off at \$1 and costs, amounting in all to \$16.10.

GRANT AT WEST POINT.

Record as a Man.

He was brevetted second lieutenant of the Fourth infantry and ordered to report to his command at Jefferson barracks, St. Louis, after a short vacation.

The entire army of the United States at that time numbered less than 8,000 men, and the supply of officers was embarrassingly large. It was the custom, therefore, to brevet graduates second lieutenant.

He graduated twenty-first in a roll of 39, with a fair record in all things-a good record in mathematics and engineering and a remarkable record as horse-

More than 100 had entered with him, but one by one they had dropped out till only 39 remained.

Apparently Grant remained markedly unmilitary throughout the four years' course. He served as a private throughout the first two years. During the third year he was made sergeant, but was dropped (promotions at that time were made for soldierly qualities and had no exact relation to excellence in studies), and during the fourth year he served

again as private. The first year he took up French and mathematics, and though the course was severe, including algebra, geometry, trigonometry, application of algebra to geometry, etc., he stood fifteenth in a class of 60 in mathematices and fortyninth in French and twenty-seventh in order of general merit. The second year he climbed three points in general merit and stood twenty-fourth in a class of 53. He stood tenth in mathematics, twenty-third in drawing, but was below the middle in ethics and French. Mrs. W. W. He rose to 20 in general merit, 16 in engineering, 17 in mineralogy and geology, but was a little below the average in ethics, artillery and infantry practice.

A WALKING DEPOSIT BANK.

Au Old Man Found Loaded With Riches In New York.

NEW YORK, Aug. 18.-A man who said he was Thomas Hussy, 86 years of age, of Montgomery, Ala., entered the American Exchange National bank to deposit some bonds, but, being feeble, could not find them. He was sitting on the step of the bank entrance when a policemen of the Broadway squad seen him. At the station house he was searched. A wallet disclosed \$773 in money, a return ticket to Montgomery, Ala., a check on Drexel & Co., Philadelphia for \$11,000 and an envelope containing 48 coupons clipped from some bonds which were found in the old man's tall boots.

There were 11 \$1,000 bonds of the city of Savannah, four \$100 bonds of the same and a certificate for 100 shares of New York Central railroad stock. He said he had a relative in Brooklyn named Mitchell. Steps will be taken to find his relative.

Norway, saying that one of the searchers for Herr Andree met the sealing vessel Alken about July 22, and was informed by her captain that one of the crew had shot a carrier pigeon, between North Cape and Seven Islands, on the north corst of Lapland, bearing a message from the explorer addressed to The Aftonbladet of Stockholm, which read as follows:

"Eighty-two degrees passed. Good journey northward. ANDRDE. The date of the message was illegible. The pigeon also carried a letter ad-

AGAINST BIMETALLIC CONFERENCE. Two London Papers Publish Editorials That Are Antagonistic.

LONDON, Aug. 18.—The Westminster Gazette echoes an editorial of the London Times on bimetallism, and says it sees no chance of the Indian mints being reopened to the coinage of silver,

"To fool any longer with President McKinley's commission is surely unnecessary. In declining to abide by the market value of silver as the standard of currency value, India has taken a step toward demonetizing silver. SHAW GAINING FAVOR.

He May Be Nominated by Iowa licans Today.

CEDAR RAPIDS, Ia., Aug. 18.-The Republican state convention convened here today. Matt Parrott of Waterloo for governor has the langest number of votes on the first ballot, with A. B. Funk of Spirit Lake second and L. M. Shaw of Denison a strong third.

Fuller and Harsh follow with Cownie. Flickinger and Harlan are practically out of the race. Shaw is evidently gaining strength faster than any other candidate, and if Parrott is not nominated before the fifth ballot it is believed Shaw will be chosen. The latter's chances were strengthened by the withdrawal of Speaker Byers.

Dectors and Beards.

Dr. E J. Senn of Chicago is thus quoted in the Chicago Times-Herald: "I do not believe that physicians should wear bushy beards. In fact, I think we will all have to come to the sacrifica and go cleanly shaved hereafter. I be lieve that the conventional doctor of the future will have a smooth face instead of a beard. My father is bitterly opposed to beards for physicians and does not allow his internes to wear them. I think it is possible to be too radical in the matter, and perhaps he is. I wear a closely cropped beard, and I do not see how it can aid at all in spreading contagion. With a long beard, and especially in surgical cases, it is different. Careful physicians who have beards protect them with gauze guards, of course, and do not allow them to come in contact with or distribute disease germs in a wound. It is better, perhaps, for all physicians to be clean shaved, and I certainly believe we will all have to come

MR. Coxey as a gubernatorial candidate cuts the same ridiculous figures as did Jacob S. Coxey, congressional aspirant and commonwealer.

If Chapman is wise he will not insist on debating the issues of the day with Governor Bushnell, the general might forget his dignity and accept.

It's a lucky day for the advocates of cheap money when the price of silver does not drop a point or two and make more Republican campaign argument.

THE Republican campaign will not lack animation. Commencing with a meeting at Columbus, another at Cincinnati and a third in Cleveland, it promises to be a time of unusual activity for those who are interested.

IMPROVED conditions have brought about an industrial revival such as this country has never before known. It is a vindication of the Republican position last year, and a guarantee that the people will not rush to false gods when they know the value of the enforcement of the real principle.

No wonder the English press is not in the best of hamor and believes this country is going to the dogs. It would make the press of any country angry to know that we are selling steel nails in its own colonies, taking away its trade, because our product happens to be better and cheaper than any other.

THE Democrats are declaring that Coxey is not a Populist and does not reflect the sentiment of the party he is popularly believed to lead. Whether this report is circulated for the purpose of injuring Coxey or making Chapman appear as the sole reader of the hosts the commonwealer has petted and loved is a question almost as difficult of solution as are some of the more important planks of the Democratic platform.

NO BOOM.

It is to be hoped that this place will not experience what the real estate men are pleased to term a boom, a rapid advance in prices to that point where investment is discouraged rather than fostered. Booms are not desirable. Like all other fictictious conditions they can only be followed by collapse and loss to the investor so unfortunate as to be the last to enter the trap. A steady, substantial improvement, based upon the institutions which can only result in advancement, is more to be desired than the blow and bluster of mushroom growth. East Liverpool has never boomed, and it will be better for the city, better for the men who have their investments here, and who will be attracted from other towns if the impression gains ground that this is one community where there is less risk for profit and more desire for progress.

defendant was represented Attorney J. H. Brookes. while the state had no attorney. The following witnesses were sworn: William Densmore, Mrs. Charles Haverly, Mrs. Houser, George Morton, William Beardmore, Mrs. Shreeves, Mrs. James March, J. E. Lutton, Charles Demmerling, Mrs. Demmerling (known as Mrs. Tyndall), Dr. Detchon, Poke Green, Mrs. J. E. Lutton, T. M. Bradley, Mrs. Byland, John Eberts, Lash

Attorney Brookes asked that witnesses be separated, and they retired and Mrs. Nancy Lutton was called.

She testified that she was the party who made affidavit, and believed Wilham Tyndall was married to her daughter although she did not see them married. "I thought Tyndall acknowledged as his wife with her although she never told me he was married to her. He met her in Glasgow, and when they came back we thought they were married. They had two children born to their union. He never called her Mrs. Tyndall to me. I heard him introduce her to Mr. Marshall as 'my wife.' Mr. Tyndall asked me to sign a paper, too, and to name my own price, and I told him I wouldn't do it for \$10,000.

"My daughter is afraid of her life is the reason she will not appear here today. Tyndall threatened to kill her.

"I never asked to see the marriage certificate as I believed them married,' continued the witness after a tilt or two between Mr. Brookes and the squire.

"I have known Tyndall nine or ten years," she said on cross examination. 'He came to our house to board, and staved there until the marriage. I knew he slept in the same room, as Tish, my daughter told me about it, and I think Annie was sleeping in the same bed. I did not send him to that room to sleep when he first came, but he was keeping company with her and took her out in the city several times."

"Your honor wants to know the character of these people, and I want to show it," explained Attorney Brookes.

"If he gets too personal I won't answer," was the wrathful reply of the

"I was advised to swear out the warrant." she continued, "and looked up the records and found the record."

"If your honor acts as counsel and justice in this case, we might as well waive a hearing. I would be obliged to you if you called some attorney to take charge of the case," said Mr. Brookes. G. Y. Travis was urged to take the case. but declined, and E. D. Marshall, coming in at that moment, was allowed to testify that Tyndall had never introduced anyone to him as his wife.

The woman was again put on the stand, and said: Tyndall sent a note to me to sign for the marriage, and they came home and lived together for two or three years. Then I learned he was married, and she had left him."

Before being excused the witness said there was no malice whatever in the charge. She gave way to J. C. Lutton.

who said: "I have known Tyndall for several years. He was boarding at my father's Harriet Lutton is my half sister, but I don't know whether she was ever married She was supposed to be, but I don't know anything about the paper being signed by her to get a license. I never saw the certificate and he never introduced her to me as his wife. The children went by the name of Tyndall, and called the man father, while my sister said she was married. I didn't go to Beaver to hunt the records."

"I never heard Tyndall introduce her as his wife" said Mrs. Lutton, "but she always claimed he had married her. Once in his presence she said they were married, and he did not deny it. He told grandpa and grandma, but would not show the certificate. I don't remember of him ever calling her Mrs. Tyndall in my presence. After they parted two years ago she came to our

house, and there were knots on her head as big as eggs, her thumb was out of place and she said he had beaten her and thrown her out."

"Yes he wrote letters to her, addressed For Tyndall to Provide the Home to Mrs. Tyndall when she was in Beaver," said the witness in answer to the squire. "I heard he had said he would kill her if she came here.'

"I know Tyndall when I see him," said Charles Demmerling. "He is my son-in-law, but I never gave my con-Conflicting Testimony Given at the Hear-sent for the marriage. I wanted him to ing of the Man Accused of Bigamv. leave her alone. She was too young Some Witnesses Swore Positively That to marry. He told me he could not He Spoke of the Woman as His Wife, marry her until he was divorced from While Others, Including the Defendant, his wife. This happened three months before the wedding. I ordered him to stav away from her. He didn't deny his other marriage."

> "My daughter had been living in Second street, but she would not obey me and did not stay in after night. I told Tyndall I understood he had another wife, and he said he could not get married again until he had a divorce from her. I took no steps to prevent the marriage because I knew it would do no good. I then believed he was a married

"Do you believe your daughter is his legal wife?" asked the squire, but there was no answer.

"I knew Tyndall when he lived with Mrs. Lutton," said Mrs. Charles Haverly, but I never heard anything to prove they were married.'

"I knew the couple," said Mrs. Houser, and I have heard him call her his wife."

"Yes, I know Tyndall." testified G. C. Morton. "They lived in my house, but never heard anything to prove they were man and wife. It seems to me he said something about his wife, but I don't remember."

Mrs. Shreeves was the next witness. She said: "I know Tyndall when I see him and the person we call Tish. They were my neighbors for one and a half years, but I never knew him to acknowledge her as his wife.'

"Tyndall came to my office before the first child was born," said Doctor Detchon, "and I understood him to say his wife was ill."

Poke Green said he didn't know anything about them being man and wife, "because I know as little about my neighbors' business as any man you ever

T. M. Bradly didn't know anything positive, and he couldn't imagine why he had been summoned. William Beardmore had seen her sign her name as Mrs. Tyndall to an insurance policy.

Annie Demmerling, the other Mrs. Tyndall, said: "I married Tyndall June 1 in Cumberland. I have the license. He said he wasn't married and I took his word for it. I know her and she told me she wasn't married to him. She said he was nothing to her, and when I went to her house she wanted us to run the house and let him pay board."

"A sort of Utah arrangement," remarked Mr. Hill.

"I suppose. My father raised a row about me going with Tyndall, but it was all the good it did. He swore he wasn't married to her."

"When I left home I went to Tyndall's to board," said the woman on cross examination, "and she told me she wasn't married. He didn't come to see me when I went to my grandmother's, but he began to come when I went to Mrs. Orr's. She has been at our house twice since the trouble began, and said she was not his wife. To save him from jail, she said, she would come down as she had no interest in the prosecution. She intends to marry a person named John Kirk."

Mrs. Byland was called, but knew nothing, and gave way to William Tyndall, the defendant.

"I began to board at Lutton's in 1889," he said, "and we made a bargain. I had a child and so had she, and I was to provide the house and she was to cook. I am not the father of her child born in 1891, but we lived together this way three years. I never married her. The arrangements were made with her free will and both of us lived up to it. I heard her claim we were man and wife, but I never did. She now lives with her mother in Beaver, and I went up to get her so she might testify that we were not married. She was willing to come and offered her services. She made no claim in my presence that we were married. I told her I was going to marry Miss Demerling, and she made no objection, saying I was my own boss. She did not protest, nor ask me for support. Mrs. Lutton told me she had made no information, and said if her name was signed to it, it was forged.

"I was first married to Miss Allison, of Georgetown, at Hookstown, and we had two children. I never had a quarrel with Tish. I just got tired living with

#### NO BOOM.

It is to be hoped that this place will not experience what the real estate men are pleased to term a boom, a rapid advance in prices to that point where investment is discouraged rather than fostered. Booms are not desirable. Like all other fictictious conditions they can only be followed by collapse and loss to the investor so unfortunate as to be the last to enter the trap. A steady, substantial improvement, based upon the institutions which can only result in advancement, is more to be desired than the blow and bluster of mushroom growth. East Liverpool has never boomed, and it will be better for the city, better for the men who have their investments here, and who will be attracted from other towns if the impression gains ground that this is one community where there is less risk for profit and more desire for progress.

#### FOR KLONDIKE GOLD.

Canada Thinks of Establishing a Yukon Treasury.

It is understood that the Dominion government has under consideration a project in connection with the administration of the Yukon district which is novel, but appears admirably calculated to meet the conditions existing in the new communities of the extreme northwest. It is the establishment of what which will be stored the gold of the miners and for which they will receive drafts on United States or Canadian banks of the full market value of their

The importance of such a depository in such a country as the Klondike district may readily be estimated. Under existing conditions the task of guarding their gold is an arduous addition to the labors of the miners. It is expected that this provision of what are practically banking facilities will go far toward reconciling the miners to the 10 per cent royalty which they will have to pay to the government. Practically they will be paying an income tax of 10 per cent for the preservation of law and order, the storage of their gold and for its safe delivery to market.

If the gold is stored in a central place under this proposed plan, the officials of the law will find the task of preserving order greatly simplified, for the miners will not be under the necessity of carrying arms, nor will the rougher sort likely spend as much gold in riotous living. It will, of course, be necesprecautions to insure the safety of the guns will be a great deterrent to the envious and greedy. - New York Sun.

But Not Before He Had Been Chased by the Man Who Is Strong Enough to Make a Chair a Dangerous Weapon-Police Working on the Case,

The home of James McMillen, 309 Lincoln avenue, was robbed during the night, and the robbers as yet have not been apprehended.

The story, as told to the police by Mr. McMillen, is that at 1:30 o'clock this morning he was awakened by a noise in the house. He sat up in bed and saw a man standing near the mantle in an adjoining room. Thinking it was his son. Walter, he called him, and in going to for Hannibal. the room saw the burglar crouch down on the floor. All the bureau drawers had been ransacked, even those in the room where McMillen and his son were sleeping. He had gained entrance to the house by taking out a screen in the window, and when this was done, his way was clear, Louisville, O., this morning. McMillen and his son then investigated the house, and found his wife's gold for a short stay with friends. watch and chain missing, as well as a gold ring and \$30 in money.

There is no clue, although the police are now working on the case.

That is Why the Manager Brought Suit to Recover the Large Amount Due Him. Judge Blandin Has His Case and Will Push It.

The exclusive announcement in the NEWS REVIEW last night, that Manager John Hoefgen had brought suit against the old East Liverpool and Wellsville Street railway, to recover a large amount of money caused more than the usual amount of talk in the city.

Mr. Hoefgen reached here last evening from Cleveland, and in discussing the matter with a News Review man

"One never knows how a suit of that kind will end. If they had not neglected the road and attended properly to their business, the suit would not have been entered. Johnson, Short and Grover are, I believe, the leading stockholders. I have been putting up all the money to the present time for the improvements, not having received a cent from the company. However, the improvements will go on just the same. that reason the suit was entered. Sooner or later I will get a judgment against them, but at what time, of course, I can't say. Judge Blandin is my attorney, and will push matters as fast as possible. After the judgment the case will take the regular form, and a referee will be asked for, in order that he may ascertain the responsible parties who are interested in the company. It will not take long to straighten out the whole matter."

# Klondyke

## The Land of Golden Nuggets.

## JOSEPH LADUE,

~~~~~

the new Bonanza King of the Klondyke Gold Regions, gives the facts. His book reads like "The Arabian Nights," BUT Joseph Ladue KNOWS whereof he writes. He was the first man on the spot when the first gold was discovered last August, 1896. He located one rich claim and immediately purchased twelve others at a low price before their value was known. He has refused \$100,000 for any ONE of these claims, as they are rich with virgin gold nuggets, beyond the dream of avarice. Joseph Ladue then

Established Dawson City

at the mouth of the Klondyke and Yukon Rivers, by erecting the first house in the region in September, one month after the gold was first discovered. He bought 178 acres from the government on the city site where his town lots 150x50 are now selling for \$5,000 each.

Mr. Ladue was fortunate enough to be successful in his trading post investments to have on hand ample capital to carry out his plans, and there is no man living who is better posted on Alaska and the great North West Territories than Mr. Joseph Ladue. He has just returned from that country to his old home in Schuler Falls, N. Y., where he passed a large portion of his boyhood and early manhood. Mr. Ladue left his home nearly twenty years ago to seek his fortune in the west going first to the Black Hills, where he was successful in gold mining, thence to Arizona and the Pacific coast and finally located in Alaska and the northwest, where he has covered almost the entire country since 1882. Mr. Ladue is a typical pioneer: strong, hardy and resolute—a man of iron as one must needs be to go through the hardships he has and come out with a constitution unbroken and unimpared at about the age of 43. Mr. Ladue has not only worked his muscles to good advantage to himself with the result of an abundance of the world's goods, far beyond the dreams of men, but he has evidently all this time been closely observing the conditions of that strange country-the Yukon Valley-which has so suddenly become one of the great centers upon which human interest throughout the world is focussed.

When the wonderful stories began to come down from the Yukon country it was naturally concluded that it was at least half exaggeration. That any Yesterday's business at the freight such amount of gold could be taken in so short a time from a country like that under the most unfavorable conditions was held to be incredible. But when the great bags of virgin gold began to be poured out upon mint counters in San Francisco under the eyes of the whole world (for modern journalism does at the outbound platform 18 were this, annihilating time and space) people began to wonder and the wonder grew day by day as the real facts were disclosed, and now people who are well informed as to the facts declare that half the truth has not been told of the golden treasures of the Yukon Valley

As we have already said, there is no man today alive who knows more about this wonderful country than does Mr. Ladue. What makes his talk of it specially interesting and reliable is the fact that his knowledge of it is practical. It has not been gained from hearsay nor from desultory visits made now and then at certain favorable seasons of the year, but from steady living there through the long summer days and the long winter nights, year in and year out for 15 years, where he now owns the best mining claims on the Klondyke and

The latest official estimate of the population of the United States is 77,-

This was made recently by the actuary of the treasury, an officer whose duty it is, at fixed intervals, to report on the per capita circulation of money in the United States. He estimates that the present holdings of money are \$22.53 for every man, woman and child in the United States.

His estimate of the population is made by the use of the census reports for the preceding decade. Certain fixed rules of increase by birth and immigration and provision for deaths and other losses are made, and the resulting estimate is accepted as official.

HOEFGEN'S GOOD MONEY

Is Being Used to Fix Up the Street Railway.

STOCKHOLDERS DO NOT CARE

That is Why the Manager Brought Suit to Recover the Large Amount Due Him. Judge Blandin Has His Case and Will

The exclusive announcement in the News Review last night, that Manager John Hoefgen had brought suit against the old East Liverpool and Wellsville Street railway, to recover a large amount of money caused more than the usual amount of talk in the city.

Mr. Hoefgen reached here last evening from Cleveland, and in discussing the matter with a News Review man said:

"One never knows how a suit of that kind will end. If they had not neglected the road and attended properly to been entered. Johnson, Short and Grover are, I believe, the leading stockholders. I have been putting up all the money to the present time for the improvements, not having received a cent from the company. However, the improvements will go on just the same. For that reason the suit was entered. Sooner or later I will get a judgment against them, but at what time, of course, I can't say. Judge Blandin is my attorney, and will push matters as fast as possible. After the judgment the case will take the regular form, and a referee will be asked for, in sible parties who are interested in the company. It will not take long to straighten out the whole matter."

Couldn't Find a House.

Charles Seanor, a former resident of this place, but late of Pittsburg, has moved his effects back to the city. He placed his goods in storage, as he was unable to secure a suitable house.

A Scalp Wound.

William, the three-year-old son of Gus Moutz, while playing around the new Thompson building at Third and Broadway last evening, fell into the cellar. When he was picked up it was found he had received a bad scalp wound. Doctor Bailey was summoned, and after the child had been taken home two stitches were put in the wound.

No Danger of a Famine.

A Pittsburg paper published a report last evening from this place, stating that a coal famine was upon the town. more coal in the city than will be sold for several months. One firm this morning received seven cars, and four flats of coal were brought to a river dealer during the night.

## JOSEPH LADUE,

the new Bonanza King of the Klondyke Gold Regions, gives the facts. His book reads like "The Arabian Nights," BUT Joseph Ladue KNOWS whereof he writes. He was the first man on the spot when the first gold was discovered last August, 1896. He located one rich claim and immediately purchased twelve others at a low price before their value was known. He has refused \$100,000 for any ONE of these claims, as they are rich with virgin gold nugtheir business, the suit would not have gets, beyond the dream of avarice. Joseph Ladue then

## Established Dawson City

at the mouth of the Klondyke and Yukon Rivers, by erecting the first house in the region in September, one month after the gold was first discovered. He bought 178 acres from the government on the city site where his town lots 150x50 are now selling for \$5,000 each.

Mr. Ladue was fortunate enough to be successful in his trading post investments to have on hand ample capital to carry out his plans, and there is no man living who is better posted on Alaska and the great North West Territories than Mr. Joseph Ladue. He has just returned from that country to his old order that he may ascertain the respon- home in Schuler Falls, N. Y., where he passed a large portion of his boyhood and early manhood. Mr. Ladue left his home nearly twenty years ago to seek his fortune in the west going first to the Black Hills, where he was successful in gold mining, thence to Arizona and the Pacific coast and finally located in Alaska and the northwest, where he has covered almost the entire country since 1882. Mr. Ladue is a typical pioneer: strong, hardy and resolute-a man of iron as one must needs be to go through the hardships he has and come out with a constitution unbroken and unimpared at about the age of 43. Mr. Ladue has not only worked his muscles to good advantage to himself with the result of an abundance of the world's goods, far beyond the dreams of men, but he has Mr. Seanor, "there are hundreds of evidently all this time been closely observing the conditions of that strange country-the Yukon Valley-which has so suddenly become one of the great centers upon which human interest throughout the world is focussed.

When the wonderful stories began to come down from the Yukon country it was naturally concluded that it was at least half exaggeration. That any Yesterday's business at the freight such amount of gold could be taken in so short a time from a country like that under the most unfavorable conditions was held to be incredible. But when the great bags of virgin gold began to be poured out upon mint counters unloaded at the receiving platform, and in San Francisco under the eyes of the whole world (for modern journalism does at the outbound platform 18 were this, annihilating time and space) people began to wonder and the wonder grew day by day as the real facts were disclosed, and now people who are well informed as to the facts declare that half the truth has not been told of the golden treasures of the Yukon Valley.

As we have already said, there is no man today alive who knows more about this wonderful country than does Mr. Ladue. What makes his talk of it specially interesting and reliable is the fact that his knowledge of it is practical. It has not been gained from hearsay nor from desultory visits made now and then at certain favorable seasons of the year, but from steady living there through the long summer days and the long winter nights, year in and year out The trustees will meet this evening for 15 years, where he now owns the best mining claims on the Klondyke and

The Country's Population, 77,000,068.

The latest official estimate of the population of the United States is 77,-

This was made recently by the actuary of the treasury, an officer whose duty it is, at fixed intervals, to report on the per capita circulation of money in the United States. He estimates that the present holdings of money are \$22.53 for every man, woman and child in the United States.

His estimate of the population is made by the use of the census reports for the preceding decade. Certain fixed rules of increase by birth and immigration and provision for deaths and other losses are made, and the resulting estimate is accepted as official.

# FOUND SOME BAD MONEY

A Tin Box Was Filled With The Stuff.

IT IS OF VERY POOR QUALITY

Section Foreman Dennis Hickey and His Crew Unearthed a Quantity of the Qeeer In East End, But Cannot Guess Who Made It.

What may be the next chapter in the story that United States officers are looking for counterfeiters in this city and vicinity has just come to light and with it \$100 of queer coin.

Foreman Dennis Hickey and his men were working near the East End flint mill when they discovered a tin box. It was heavier than the ordinary tin box of its dimensions, and they opened it. Within was a startling array of coin, quarters and nickels. They were poorly made, the nickels being unfinished and still bearing the marks of the mould. There was fully \$100 of the stuff, but the Italians gave some of it around to their friends and the exact amount cannot be ascertained. The box was in the weeds not far from the track.

The opinion is expressed that the money was thrown from a passing train, but it is more probable that the counterfeiters who circulated the spurious coin in Beaver recently, and later moved to this place, are responsible for it. Particularly does this theory appear to good advantage, when it is remembered that a five cent piece exactly like those in the box was found the other day on Broadway.

The Italians stated today that the money was in a basket, but when they saw it was counterfeit they threw the stuff away. Officer Terrence heard of the matter, and Chief Morley detailed him to go to the East End and recover the coin.

#### SOMETHING ABOUT BEETLES

Their Strange Habits, Instincts and Means of Getting Food.

You are all familiar with the common black beetle known as the tumblebug, and perhaps may have seen it rolling a ball with its hind legs, pushing it backward. The ball contains the egg of the beetle, and the creature is taking it to & place of safety.

A green beetle spotted with white is called the tiger beetle. He is a clever fellow and very cunning in his manner of securing his prey. He will dig a hole a foot in depth and then crawl to the top and form himself into a bridge across the chasm, burying his head in such a manner as to appear like something inanimate, but he will be on the alert for the unwary creature that makes an attempt to cross on his back. In an instant the bridge will give way and the prey will be precipitated into the hole. The beetle will follow and quickly dispatch the game, when he will return, reform the bridge and allure another victim.

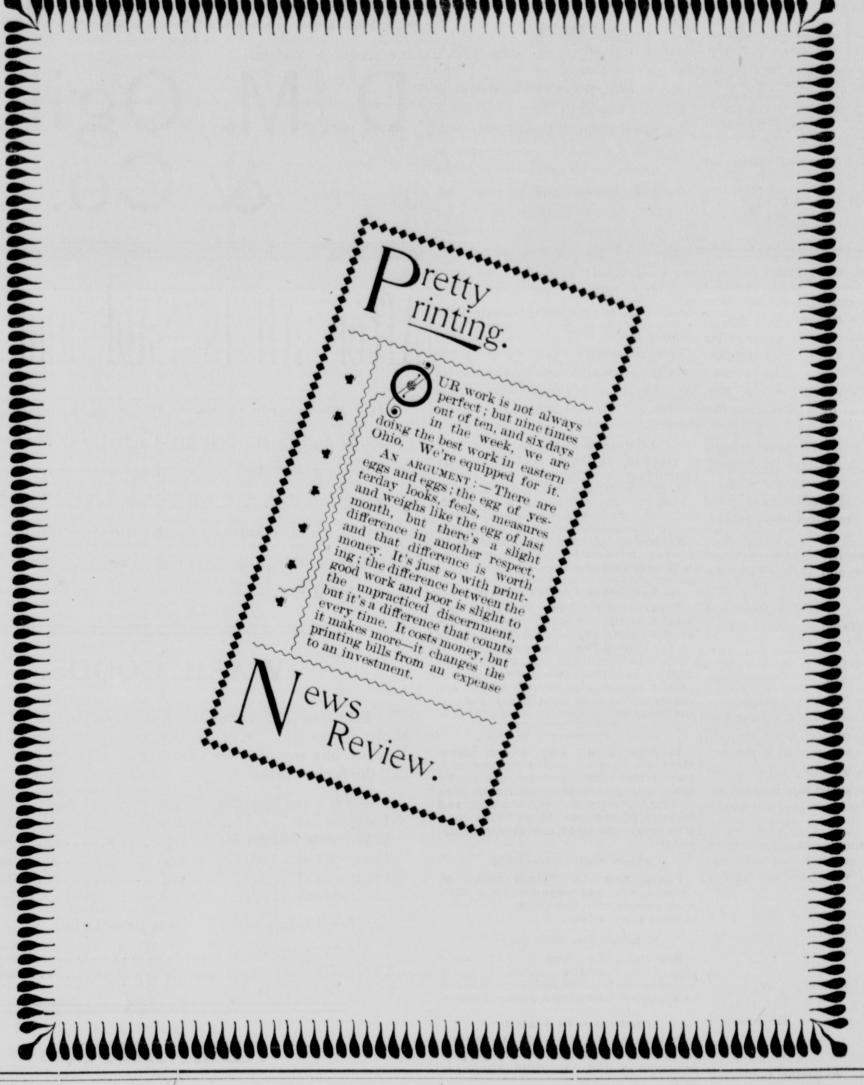

Old fashioned furniture is often completely ruined by the larvæ of a beetle called the anobuim. A peculiar sound like the ticking of a clock is made by these beetles when they call to each other, the noise being made by striking the jaws against their resting place, and often in old houses filled with old furniture the superstitious, when they hear this peculiar sound, imagine the place

to be haunted. Another beetle is found in dark cel lars, where it thrives upon dust and trash. It is so difficult to exterminate it that it is looked upon as something uncanny, and the ignorant regard its pres-

ence as an ill omen. The sacred beetle of Egypt is not unlike our own common beetle, and the female lays her egg in the same way, wrapped in a substance which is to protect it and furnish food. She rolls it up into a ball with her fore legs, sometimes carrying it a long distance upon her head; digs a hole in the earth, deposits her egg laden ball, covers it up, and leaves it to attain its perfect develop-

The sexton beetle is a curious creature. He has a thick body and powerfulimbs and a most acute sense of smell. No sooner does a small animal die than the sextons gather about the body and begin to put earth upon it. In a few hours the dead animal has been covered and the beetles have laid their eggs in the careass, which is to nourish the

A remarkable creature is the bom bardier beetle, and it is provided with a strange means of defense. It lives in a community under stones, and when disturbed discharges a fluid of a very penetrating odor, much like gas, which explodes as it comes in contact with the air and passes into vapor. Eighteen explosions can be made in succession by one bombardier, and while these are being thrown off like a volley of artillery the beetle effects its escape. The fluid is like nitric acid to the taste. It causes a sharp pain if placed upon the tongue and leaves a yellowish stain.

# FOUND SOME BAD MONEY

A Tin Box Was Filled With The Stuff.

IT IS OF VERY POOR QUALITY

Section Foreman Dennis Hickey and His Crew Unearthed a Quantity of the Qeeer In East End, But Cannot Guess Who Made It.

What may be the next chapter in the story that United States officers are looking for counterfeiters in this city and vicinity has just come to light and with it \$100 of queer coin.

Foreman Dennis Hickey and his men were working near the East End flint mill when they discovered a tin box. It was heavier than the ordinary tin box of its dimensions, and they opened it. Within was a startling array of coin, quarters and nickels. They were poorly made, the nickels being unfinished and still bearing the marks of the mould. There was fully \$100 of the stuff, but the Italians gave some of it around to their friends and the exact amount cannot be ascertained. The box was in the weeds not far from the track.

The opinion is expressed that the money was thrown from a passing train, but it is more probable that the counterfeiters who circulated the spurious coin in Beaver recently, and later moved to this place, are responsible for it. Particularly does this theory appear to good advantage, when it is remembered that a five cent piece exactly like those in the box was found the other day on Broadway.

The Italians stated today that the money was in a basket, but when they saw it was counterfeit they threw the stuff away. Officer Terrence heard of the matter, and Chief Morley detailed him to go to the East End and recover the coin.

#### SOMETHING ABOUT BEETLES

Their Strange Habits, Instincts and Means of Getting Food.

You are all familiar with the common black beetle known as the tumblebug, and perhaps may have seen it rolling a ball with its hind legs, pushing it backward. The ball contains the egg of the beetle, and the creature is taking it to a place of safety.

A green beetle spotted with white is called the tiger beetle. He is a clever fellow and very cunning in his manner of securing his prey. He will dig a hole a foot in depth and then crawl to the top and form himself into a bridge across the chasm, burying his head in such a manner as to appear like something inanimate, but he will be on the alert for the unwary creature that makes an attempt to cross on his back. In an instant the bridge will give way and the prey will be precipitated into the hole. The beetle will follow and quickly dispatch the game, when he will return, reform the bridge and allure another victim.

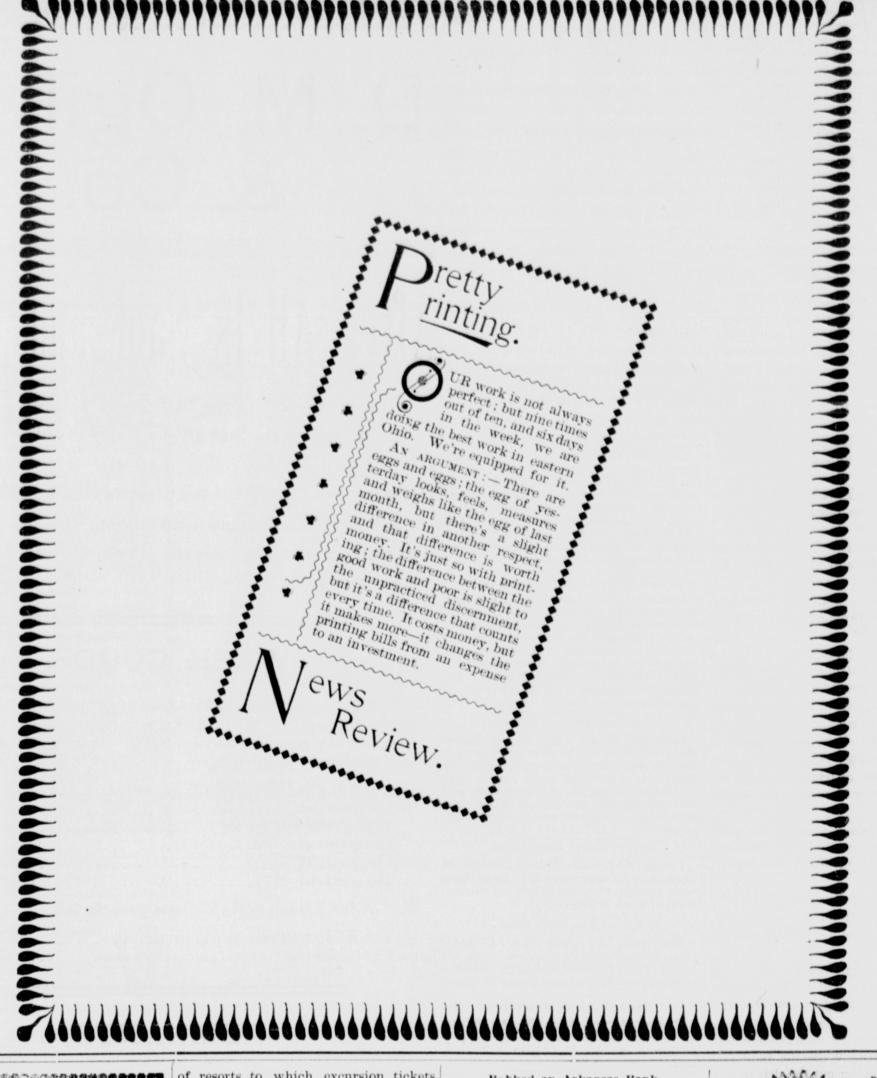

Old fashioned furniture is often completely ruined by the larvæ of a beetle called the anobuim. A peculiar sound like the ticking of a clock is made by these beetles when they call to each other, the noise being made by striking the jaws against their resting place, and often in old houses filled with old furniture the superstitious, when they hear this peculiar sound, imagine the place to be haunted.

Another beetle is found in dark cel lars, where it thrives upon dust and trash. It is so difficult to exterminate it that it is looked upon as something uncanny, and the ignorant regard its pres-

ence as an ill omen. The sacred beetle of Egypt is not unlike our own common beetle, and the female lays her egg in the same way, wrapped in a substance which is to protect it and furnish food. She rolls it up into a ball with her fore legs, sometimes carrying it a long distance upon her head; digs a hole in the earth, deposits her egg laden ball, covers it up, and leaves it to attain its perfect develop-

The sexton beetle is a curious creature. He has a thick body and powerfu. limbs and a most acute sense of smell. No sooner does a small animal die than the sextons gather about the body and begin to put earth upon it. In a few hours the dead animal has been covered the careass, which is to nourish the

A remarkable creature is the bom bardier beetle, and it is provided with a strange means of defense. It lives in a community under stones, and when disturbed discharges a fluid of a very air and passes into vapor. Eighteen explosions can be made in succession by one bombardier, and while these are being thrown off like a volley of artillery the beetle effects its escape. The fluid is like nitric acid to the taste. It tongue and leaves a yellowish stain.
